## Troy bilt 2800 pressure washer pump

© 1996-2014, Amazon.com, Inc. or its affiliates Electric Pressure Washers Gas Pressure Washers Generac Pressure Washers Greenworks Pressure Washers Kärcher Pressure Washers Pressure Washer Hoses Pressure Washers Pressure Washers Under \$200 Menu Account Cart When it's time to blast the grime, a pressure washer can be an invaluable tool; but like most outdoor power equipment, your pressure washer may need maintenance or replacement parts. Keep your Troy-Bilt® Pressure Washer performing at its best with our wide selection of spray guns, o-ring replacement kits, nozzle tips and more, all backed by our Right Part Pledge. Our Part Finder makes it easy to find the parts you need. We offer free shipping on parts orders over \$50 and all orders placed before 5 pm ship next day. For more parts and warranty information, please visit Briggs & Stratton. The return timelines for seller-fulfilled items sold on Amazon.in are equivalent to the return timelines mentioned above for items fulfilled by Amazon. If you've received a seller-fulfilled product in a condition that is damaged, defective or different from its description on the product detail page on Amazon.in, returns are subject to the seller's approval of the return. If you do not receive a response from the seller for your return request within two business days, you can submit an A-to-Z Guarantee claim. Learn more about returning seller fulfilled items. Note: For seller fulfilled items from Books, Movies & TV Shows categories, the sellers need to be informed of the damage/ defect within 14 days of delivery. For seller-fulfilled items from Fine Art category, the sellers need to be informed of the damage / defect within 10 days of delivery. These items are not eligible for self-return. The seller will arrange the return pick up for these items. For seller-fulfilled items from Sports collectibles and Entertainment collectibles categories, the sellers need to be informed of the damage / defect within 10 days of delivery. When it comes to lawn and gardening care products, Troy-Bilt is a popular manufacturer. It sells lawnmowers, edgers, tillers, cultivators and other products needed to keep your yard looking good. Take a look at how to find a Troy-Bilt dealer in your area.Visit Troybilt.comOne quick, easy way to find a Troy-Bilt dealer in your area is to visit the company's website at Troybilt.com. On the top right corner of the website, you'll see a link that says "where to buy." Click it, and you'll see a list of stores in your area that sell Troy-Bilt products. If you don't see anything near you, enter your ZIP code and the number of miles away you're willing to travel to find a dealer for even more results. You can also view the various stores in an area on a map by clicking "map view."Contact the StoreWhen you view your search results, scroll down to the store nearest you or the one you want to shop at, and you can find some basic information. The site lists each store's location, how far it is from your ZIP code, the phone number for the store and a form where you can enter your own address and get directions. If you want to know which Troy-Bilt products the store sells, contact the retailer via phone.Go to the StoreAnother option is to go directly to the store first. Many national big box hardware stores, like Home Depot, Lowe's and Sears, may sell Troy-Bilt products and parts, so you might want to head to your local one and check out its selection in person. If your local hardware store or garden shop doesn't sell the products, ask a staff member if they can recommend a place that does in your area.Troy-Bilt Service FinderIf you already have a Troy-Bilt product and need service for it, you can go back to Troybilt.com and find someone who provides servicing in your area. Click on "service" on the top right corner of the home page, and then click "find service" on the Service Locator page. Again, you can enter your ZIP code and the number of miles away you're willing to travel, and you can view the service locations on a map.Contact a Service ProviderLike the list of stores available on the Troy-Bilt dealer locator page, the service locator page will show you a list of lawn mower and equipment service providers in your area. For each provider, you'll see the address and phone number as well as a list of how many miles away the shop is from your ZIP code. Contact your service provider of choice first to ensure the staff can work on the pieces of equipment you own. MORE FROM QUESTIONSANSWERED.NET You can use a pressure washer to clean nearly anything outside in a fraction of the time it would take you otherwise. However, before you start dreaming about your next cleaning project, learn more about how to choose a unit, what you need and how to use a pressure washer.Types of Pressure WashersWhen you're shopping for pressure washers, you'll find two basic types: electric and gas. Electric pressure washers, which you power by plugging them into an outlet. That can limit where you use the pressure washer. Additionally, while they can be powerful, electric pressure washers are typically best for cleaning smaller items, including grills, patios and bicycles. People often like these types of pressure washers because they're quiet, lightweight, portable and low maintenance.Gas pressure washers require that you buy gas or oil to power the machine. However, that also gives you the freedom to go just about anywhere with it. Although gas pressure washers are heavier than electric ones, they usually have wheels to help you maneuver them. Additionally, they require regular maintenance, but they're more powerful and last longer than electric models.How Pressure Washers WorkNo matter whether you choose an electric or a gas-powered pressure washer, the machine works pretty much the same way. The motor or engine operates a pump. That pump pressurizes water from the hose up to 1,000 pounds or more before forcing it through the spray wand. The higher the pressure the washer puts out, the stronger its cleaning power. The pressure is measured in pounds per square inch (psi). While many of the smaller washers come with one adjustable nozzle that lets you switch from a single stream to a fan-shaped spray. Larger units may come with different nozzles, including some that rotate, create wider or narrower patterns and turbo-charge the stream.What Not to Pressure WashPressure washers are effective in removing flaking paint, stuck-on grime, mold, algae, mud and more. Using a pressure washer on surfaces like patios, decks, driveways, masonry, siding and brick is perfectly safe. However, some materials can't hold up to the powerful pressure. Examples include: Asphalt roofs: Using a pressure washer on your asphalt roof destroys it by removing the granules Antique items: Very old furnishings, old decking and antique buildings could all have dry rot or soft spots that your pressure washer will likely damage Stained wood: Pressure washing stained wood surfaces will remove the stain from the wood, requiring you to re-stain it after it dries Tips for Pressure WashingGetting started is a matter of powering up the machine and hooking it up to your garden hose and tightening all the connections to prevent air from getting into the lines. Tips for using your pressure washer include: Wash vertical surfaces like siding from the bottom up, then rinse from the top down Use the lowest pressure nozzle with the broadest spray pattern to avoid damaging the surface you're cleaning Avoid spraying into outlets, vents or air conditioning units Pressure Washer TroubleshootingAlways keep your pressure washer repair manual after buying one. Not only will it offer helpful tips for operating it safely, but it also will give you information like the model number, which you might need to get pressure washer repair parts. It also helps to keep pressure washer spare parts around for small fixes. For example, if you're having trouble starting it, you might need to replace the spark plug or clear out the fuel tank to remove debris before refueling.In many instances, you might not need parts. Instead, you might need to check things out. For example, if your pressure washer is leaking, check the O-rings and water seals, but it might be as simple as loose fittings, which are the most common cause of leaks. If you're having pressure problems, make sure your garden hose is the right size and is free of any kinks or leaks. MORE FROM QUESTIONSANSWERED.NET JavaScript seems to be disabled in your browser.
